

ATTACHMENT 3

SAMPLING, ANALYTICAL, AND QA/QC PROCEDURES

Consisting of:

- o Laboratory Quality Control Plan and Procedures Program For The Chemical Stockpile Disposal Program, Revision 4, September 20, 1993, incorporated by reference.
- o Laboratory Quality Control Plan, CDRL L005/CDRL 024, Revision 5, Change 3, February 4, 2003, incorporated by reference.

Enclosure 1	Laboratory Operating Procedure for Depot Area Air Monitoring Systems (DAAMS), TE-LOP-522, Revision 6, Change6, August 5, 2003.
Enclosure 2	Laboratory Operating Procedure for Automatic Continuous Air Monitoring System (ACAMS), TE-LOP-524, Revision 7, July 19, 2004
Enclosure 3	Laboratory Operating Procedure for Liquid and Dry Solid Residue Sampling TE-LOP-534, Revision 5, Change 3, September 14, 2004.
Enclosure 4	RESERVED
Enclosure 5	RESERVED
Enclosure 6	Laboratory Operating Procedure for Analysis of Depot Area Air Monitoring System (DAAMS Tubes). TE-LOP 562, Revision 6, Change 4, August 5, 2003.
Enclosure 7	Laboratory Operating Procedure for Extractions/Analyses TE-LOP-572, Revision 4, Change 2, May 12, 2003
Enclosure 8	Laboratory Operating Procedure for Special Analysis, TE-LOP-574, Revision 6, June 16, 2003.
Enclosure 9	Laboratory Operating Procedure for Neat Agent Operation and Gas Chromatographic Determination of Concentration of Agent Standards, TE-LOP 584, Revision7, Change 1,December 15, 2003.
Enclosure 10	Laboratory Operating Procedure for Quality Control Procedures for Monitoring Operations, TE-LOP-592, Revision 3,Change2, December 15, 2003.
Enclosure 11	Laboratory Operating Procedure for Analytical Operations, TE-LOP-594, Revision 5, Change 1, October 27, 2003.
Enclosure 12	RESERVED
Enclosure 13	Analysis of Agent and Bulk Container Special Handling Rinsate using X-ray Fluorescence Spectroscopy, TE-LOP-541, Revision 1, January 2, 2002.
Enclosure 14	Analysis of Metals by Inductively Coupled Plasma-mass Spectrometry (ICP-MS), TE-LOP-557, Revision 0, Change 2, May 10, 2004.
